

## Agenda CSAB

This year our interest group fielded 6 research sessions, with 7 presentations each, and 3 posters. We had 32 papers and 14 abstracts submitted, with 26 papers and 11 abstracts accepted. Although this is a higher acceptance rate than ICA overall, I would note that we have exceptional scholarship in our group, and the average score for the accepted papers and abstracts remains the same as in previous years. We had 41 reviewers who on average reviewed three submissions each.
